## WIN LIFETIME ACCESS

- ➤ Our ELITE Gardening Membership
- ➤ Lifetime Unlimited level access to Seedtime
- ➤ Monthly LIVE meetings
- ➤ Private FB Group Access
- Access to our ELITE garden training library online

# OVERVIEW:

- 1. DAY 1: Choosing what to grow in your garden
- 2. DAY 2: Choosing where to grow (mapping it out)
- 3. DAY 3: Creating your planting calendar (and our perpetual harvest hack!)
- 4. DAY 4: Succession planting made easy
- 5. DAY 5: Picking varieties and making your seed order

# OVERVIEW:

- 1. Creating your own personal planting calendar
- 2. Figuring out when to seed, transplant, or find your expected harvest dates
- 3. How weekly checklists can make your gardening an absolute breeze
- 4. Our perpetual harvest hack

#### PLANTING CALENDAR

- 1. Figure out when to seed
- 2. Figure out when to transplant
- 3. Have an idea of when the harvest will be ready
- 4. Tools
  - 1. Johnny's Seeds
  - 2. A Way to Garden

## THE SIMPLE WAY

- 1. Gardening is full of decisions
- 2. The simple art of knowing:
  - 1. What to do (PLAN)
  - 2. How to do it (ACTION)
  - 3. And doing it at the right time (TIMING)
- 3. Power of the "Perpetual Harvest Hack"

## WHAT TO DO

- 1. The list of crops you are going to grow
- 2. Seeding, transplanting, cultivating, watering, trellising, harvesting
- 3. Succession or "leapfrog" planting

#### WHAT IS LEAPFROG PLANTING?

- 1. What is leapfrog planting?
- 2. Each time you harvest have another crop ready to plant
- 3. Example with lettuce
- 4. Example with peas and green beans

## LEAPFROG PLANTING

- 1. But leapfrog planting can be complex too
  - 1. You've got to figure out when to plant your first crop
  - 2. Then how long before it will be harvested
  - 3. And how long of a harvest window you can expect from it
  - 4. And then when to plant the second "leapfrog" crop so that it is ready to go in when the first crop is harvested
  - 5. Plus figure out how long in the season the crop can be grown
  - 6. And then repeat that for each crop because they are all different

## LEAPFROG PLANTING

- 1. It really doesn't take that much more physical work.
- 2. Complicated? You bet it sure can be!
- 3. Unless you're using the "Perpetual Harvest Hack"!

## HOW TO DO IT

- 1. How to seed your starts
- 2. How to transplant
- 3. How to cultivate
- 4. How to build healthy soil
- 5. How to trellis your plants
- 6. How to extend your season into the winter without breaking your pocketbook

#### WHEN TO DO IT

- 1. The timing of when to seed
- 2. When to seed succession plantings
- 3. When to transplant
- 4. When to harvest
- 5. Putting it all in a calendar
- 6. Weekly checklist for extreme clarity

20 Feet

## THE SIMPLE WAY

#### SEEDTIME LAYOUT

Imagine being able to not only track the timing of your crops, but be able to visually track where they will be growing in your garden at the same time.

Oh yeah! Now we're talking...

#### SEEDTIME WEATHER

What if historical weather data and forecasting was integrated directly into your gardening calendar?

Sound like a dream?

#### SEEDTIME INVENTORY

Tired of sifting through random half-used seed packets?

Never sure what you have on hand or what you need to purchase?

Absolutely Love it!!! I now have a clear plan of what to do when - NICE JOB!!!

I am not the most tech savy - curious where we go to log back in, go back through emails or is there an icon we can upload?

#### Jen

Came in last... but just have to say I am loving this app! I'm a fairly new gardener and this is sooooo helpful!

#### Andrea |

I'm using my calendar for the first time, to plan my first ever fall gardening attempt. It's been helpful in knowing what I can and can not plant now before our first frost and what can go past those firsts frosts.

#### Kim

I have been gardening since I was in my mid 20s. I'm now in my mid 60s. I started using the earliest version of Seed time when it first came out. My fall and winter garden last year was the best ever, because the guess work of when to plant was simplified and so easy. Can't wait to see how it will do again this fall and winter My summer garden this year has been challenging because of extreme heat. I love all the videos, helpful links and knowing I can get answers to my questions when I need help. Seed time is absolutely the best and I love it! Wish it had been around 40 years ago. It gives beginning and experienced gardeners tools to have the most productive and successful gardens and harvests. Thank you so much!

Kali Colombia

I'm planning a much larger fall/winter garden than I have in the past, with a mix of protected and unprotected growing spaces. It's a lot of different seeding dates to sort out and manage, and Seedtime definitely made it easier to plan and stay on task, and be confident that I am planting things at the right time. I'm looking forward to using it to plan my next spring garden!

Gardening Experience level: Lets see I'm 35 so lets call it 30 years?

Seedtime Impact - Overall positive, a great improvement over my previous systems and has the potential to exceed functionality of any other similar programs I've tried. I found it easier to use/adjust than my own sheets, and love how customizable it is (I grow a lot of strange heirlooms.) Obviously it's still in development and there is room to improve utilization and features. I've compiled some more specific observations to include in sub-comments, but a lot of it echoes the sentiments of Mr. Pratt above.

#### Deann

I was introduced to gardening as a small child; my mom always had a huge garden where she grew a significant portion of our family's food. With the exception for a few short years living in apartments, I have always had some form of a vegetable garden. Seedtime has helped me organize and extend my growing season, first on the front end of the season & now on the back end. I live in zone 6a/b. As we head quickly towards fall, I am using the app to guide me in extending my gardening & harvests into the fall & then winter. This is exciting because in the past I this has been the time when I close up my garden for the winter. A quick note. I chose to entered into seedtime as a lifetime member b/c a quick review of the product/project in Kickstarter demonstrated that there was no way I could glean full use of the program out of just one season of gardening. I look

forward to continuing to learn and increase my knowledge, harvests & enjoyment

of gardening in many seasons to come.

#### Stacie \_\_\_\_

ORGANIZATION! This is my first year trying a functional garden and Seedtime has helped me be SO organized with it! It's really helped me be less anxious about growing everything and gave me a ton of confidence in managing a whole garden!

**Like** · **Reply** · 23h

Paul Dysinger and Edwin Dysinger,

Lwant to say thank you. SEEDTIME has been such a huge help. Several times a year, my depression gets so bad that I am physically incapable of doing anything other than what is mandatory for survival, and SEEDTIME has help give me an easy to follow structure that has allowed me to include gardening in my "needed to survive" list without being so overwhelming that I just let everything either overgrow or die. This is an absolutely game changer in my life. I find myself wandering around my garden pruning, watering, weeding, and watching/appreciating on days that I cannot handle existing. It might not seem like a big thing, but some days, it's enough to just exist. Some times it's enough to just water a garden and talk to the birds and bugs. Without SEEDTIME it would all be too overwhelming and I would hide in my house instead of wandering in my garden.

I'm setting this so that comments are off because today is one of those days. But it's also a day where I know that if I keep quite other people that are struggling will feel like they are alone, and they aren't.

# TAKE YOUR GARDEN TO THE SKIES

#### Jan Johnson ▶ Born to Grow Family

June 1 at 11:11pm · 🔣

I deliberately have a very small garden. Keep that in mind when you see this picture. This is my second batch of green beans and my first inkling of peas. I will be picking lettuce tomorrow. Since I have never grown anything

I am really happy.

**LaRee Colburn** ▶ Born to Grow Family …

August 27, 2017 · 4

Today's garden haul. I think it's safe to say I'll be snapping beans tomorrow

LaRee Colburn So tell Natasha we really missed having her help abut we survived. I failed to mention that there were still 2 bags of beans waiting to be snapped in the refrigerator. So in this batch we canned 68 quarts and that gives

There was a very <u>noticeable</u> difference in the amount of fruitage this year compared to last year... I really got to give credit where credit is due, so I thank God and thank you for sharing the knowledge and wisdom to the masses."

www.seedtime.us/join

## What could you do with Seedtime?

What if it took the guess work out of extending your season into the winter or even earlier in the spring - giving you extra fall and winter harvests?

Or what if it took away the hassle of planning succession plantings and helped you stay organized giving you a ton more confidence in managing your whole garden without anxiety?

What if the weekly checklist helped you seed just one or two new crops each week?

Consistently adding a steady flow to your garden.

How much do you think you could grow in a year?

How much could you potentially save?

When we tracked our prototype for Seedtime we grew six tomato plants that produced over 100 lbs of tomatoes.

That's about \$300 worth!

# What if you just grew six tomato plants and got that kind of a harvest?

Or, what if you <u>doubled it</u> and grew 12 tomato plants and then added some squash and cucumbers? Plus a little fall garden?

Fast forward a full year and how much of your grocery bill could you replace from your garden?

\$300?

\$500?

\$1000?

### And what if it saved you hours of time like Kirial?

Kirial Scheduling

Pro: Easy to adjust the schedule on the fly thanks to the drag-and-drop; way better than having to go in and edit dates manually on 40+ entries to see them reflected in the charts/calendars on excel. It doesn't seem like much, but when you add it all up that has saved me actual hours (about 32) over the season so far.

#### Deann 19 hours ago

I backed seedtime because I want to extend my harvest seasons, thus increasing g my yields. First off,I entered my typically planted crops. And I found...

I will need to take this one step at a time. There is obviously SO much more I could be doing! I could be harvesting a bounty of fresh produce right now! So much information to digest, but this is EXACTLY what I needed to boldly illustrate & guide what I could be doing.

Within the first hour of the first day of use I say BRAVO.

Now I need to get moving as there are many things I could be doing in relation to my garden, even on a cold, rainy day like today.

Thank you!

Jenn l

Helped keep me on task. Flexible, which is nice because a lot of my veggies needed way more time than estimated so I was able to easily adjust harvest dates

Like · Reply · 22h

Leverett aday ago

Wow. Just wow. It would be an exaggeration to say I have waited my entire 62 years for this tool - but only because I didn't begin gardening until I was a teenager. It \*wouldn't\* be an exaggeration to report that I'm getting a little misty eyed just writing this.

I would just like to say how much I LOVE the fall/winter planting aspect of the calendar! I think it will enable me to grow things I haven't been able to do in our short season, blazing hot summer area! It makes the planning so much easier! Thank you, Paul and team!!

You and 1 other

#### 

This looks like it is going to be very helpful!! Thank you.

#### △ Millie

I am so excited about this program. It really helps to be able to adjust the plant date and have the rest of the dates adjust!

Martie |

Woot woot! I just inputted most of my early crops!

#### 

Gonna trellis the cukes, peas and beans so they can fit Thanks for creating this calendar. Love it so far!

#### Peter

I am just a backyard gardener, but I really like the seedtime app, as it lets me know what to do when, etc. There is a learning curve, but I am looking forward to using it continuously.

thank you! I love it already. ••
