Thank you! I can't tell you how much your books have inspired my greenhouse growing. As we built our greenhouse we planned areas for winter inground growing. I work with a Master Gardener program and frequently recommend your books to people. Thank you for your year round techniques. You are so very much appreciated!!!!

I am working this evening, with no WiFi even if I was tempted to cheat, but Eliot's Winter Gardening book was definitely an important part of my learning to grow in my growing, after moving the the temperate Pacific Northwest. THANK YOU!!

Thank you Eliot Coleman! I built my 1st high tunnel about 2000 after reading your book Four-Season Harvest. I've loved growing winter veggies ever since. ❤️🥦❤️
