- Organic pest control toolkit so you know what to keep on hand for any emergency
- Photo by photo directory to quickly identify your garden invaders
- Insect/bug characteristics, what they do, and how to deal with them naturally

EVENING SESSIONS OVERVIEW:

1. **DAY 1:** Choosing what to grow
2. **DAY 2:** Timing for fall and winter crops
3. **DAY 3:** Laying out your winter garden
4. **DAY 4:** Succession planting for a continual harvest
5. **DAY 5:** Protecting your winter crops

A top-down view of a wooden desk. In the top right corner, a portion of a silver laptop is visible, showing keys like 'tab', 'caps lock', 'shift', 'fn', 'control', 'alt option', 'command', 'Q', 'W', 'A', 'S', 'Z', 'X', and 'D'. Below the laptop, a pair of black-rimmed glasses lies horizontally. To the right of the glasses is a white ceramic coffee cup filled with dark coffee, with a yellow handle. In the top center, a small green succulent plant is in a dark pot. The background is a dark wood-grain surface.

Greg Johnson

January 11 · 🌐

Harvested from the cold frames before the temperature drops below zero. Still an abundance even in January after the shortest days it the year!
God is good.

TIMING YOUR WINTER PLANTINGS

A TIME FOR EVERYTHING

For everything there is a season, and a time for every matter under heaven... a time to plant, and a time to pluck up what is planted;

- *Ecclesiastes 3:1-2 (ESV)*

**THE #1 CRITICAL FACTOR FOR A SUCCESSFUL
WINTER GARDEN**

OUR PERPETUAL HARVEST HACK

THE SIMPLE WAY

1. Gardening is full of decisions
2. The simple art of knowing:
 1. What to do (PLAN)
 2. How to do it (ACTION)
 3. And doing it at the right time (TIMING)
3. Power of the “Perpetual Harvest Hack”

HOW TO CREATE YOUR OWN PLANTING SCHEDULE IN JUST MINUTES

YOU COULD PULL TOGETHER YOUR OWN “PERPETUAL HARVEST HACK”

You'll need to:

1. Manually find your average first and last frost dates
2. Look up each crop to find the suggested time to seed it for your location
3. Manually enter all of the info into a calendar to keep track
4. Calculate out the days to maturity for each crop so you know about when your harvests will start
5. Then make all the calculations for your leapfrog plantings

YOU COULD PULL TOGETHER YOUR OWN “PERPETUAL HARVEST HACK”

You'll need to:

6. Get your calendar to sync with some kind of to-do list to help keep you on track
7. And then spend hours browsing through YouTube videos (or reading books) to find the best ways to do everything

**Yes, doing it on your own is
definitely an option - but if
you're anything like us it just
sounds like a lot of work and
hassle**

And it is - trust us

**This is how we used to create
our planting calendars! 😄**

The good news is there is a
better and way easier way

SEEDTIME

A close-up photograph of fresh green leafy vegetables, likely kale or collard greens, with numerous small water droplets on their surfaces. The leaves are vibrant green and show detailed vein patterns. A dark, semi-transparent horizontal bar is overlaid across the middle of the image, containing the word "HOMEWORK" in white, bold, uppercase letters.

HOMEWORK

HOMework

1. **Get your Seedtime account**
2. **Enter your crops** into your Seedtime calendar from the list of crops in your worksheet
3. Celebrate by going LIVE or posting in the FB group and **share your #1 takeaway** from today's class
