SEEDTIME

EVENING SESSIONS OVERVIEW:

1. **DAY 1:** Choosing what to grow
2. **DAY 2:** Timing for fall and winter crops
3. **DAY 3:** Laying out your winter garden
4. **DAY 4:** Succession planting for a continual harvest
5. **DAY 5:** Protecting your winter crops

A top-down view of a wooden desk. In the upper right corner, a portion of a silver laptop is visible, showing keys like 'tab', 'caps lock', 'shift', 'fn', 'control', 'alt option', 'command', 'Q', 'W', 'A', 'S', 'Z', 'X', and 'D'. Below the laptop, a pair of black-rimmed glasses lies horizontally. To the right of the glasses is a white ceramic coffee cup filled with dark coffee, with a yellow handle. In the top center, a small green succulent plant is in a dark pot. The background is a dark wood-grain surface.

SILENCE DISTRACTIONS

A vibrant still life photograph of fresh vegetables. In the foreground, several bright orange carrots are visible, along with a bunch of purple beets. To the left, there are green leafy vegetables, possibly spinach or kale. The background is filled with more greenery, including what looks like dill or other herbs, creating a lush and natural setting. The lighting is soft and natural, highlighting the textures and colors of the produce.

MAPPING OUT YOUR GARDEN SPACE

YOUR WINTER GARDEN SPACE

1. Look for areas that get the most sun
2. Most crops do best with 6-8 hours of full sun
3. South facing slopes / walls will stay warmer in the winter
 1. In hot zones like Southern Florida you may want to look for cool microclimates (North facing)

YOUR WINTER GARDEN SPACE

1. Consider protection from the wind
2. Understand microclimates
 1. Wind protection
 2. Frost pockets
 3. Orientation
 4. Creating your own

CROPS FOR THE SHADE

1. Veggies grown for their leaves or roots tolerate shade the best
2. Beets, carrots, garlic, potatoes, radishes, onions
3. Asian greens, broccoli, cabbage, collards, kale, lettuce, spinach, Swiss chard etc.

MAP OUT YOUR SPACE

1. Map out your garden space
2. Lay out your garden beds
3. We suggest 30" wide beds
 1. Easy to step or reach across
 2. Tools made for them
 3. 12-18 inch aisles

30 Inches

(2.5 feet)

1 Foot

20 Feet

A top-down view of a seedling tray with many small green plants in individual cells. The plants are young and vibrant green, growing in dark soil. The tray is made of a dark material, possibly plastic, and the cells are arranged in a grid pattern. The lighting is soft, highlighting the texture of the leaves and the soil.

SIMPLE CROP ROTATION

WHY ROTATE YOUR CROPS?

1. Plants give and take from the soil in different ways
2. Some are heavy feeders and some are light feeders
3. Insect and disease control
4. Crops can affect the next crop grown
5. Legumes leave nitrogen in the soil

SIMPLE CROP ROTATION PLAN

Four-Year Basic Crop Rotation

Vegetables:

Beans
Green Beans
Peas
Peanuts
Cover Crop

Families:

Legumes

Vegetables:

Carrots
Turnips
Onions
Radishes
Beets
Dill, Cilantro
Parsley

Families:

Carrot
Onion
Cole (Brassicas)
Goosefoot

Vegetables:

Tomatoes
Peppers
Eggplant
Cucumbers
Squash
Corn
Potatoes

Families:

Nightshades
Melons + Squash
Grasses

Vegetables:

Salad Greens
Lettuce
Spinach
Cabbage
Kale
Broccoli
Cauliflower

Families:

Sunflower
Cole (Brassicas)
Goosefoot

FIGURING OUT HOW MUCH TO GROW

HOW MUCH TO GROW

1. Two ways to view it
 1. Look at available space and fill it up
 2. Look at the amount you want to eat each week and multiply it by the harvest window (in weeks)
 3. Calculate row space to produce desired harvest
2. See worksheet to calculate

A WORD ON WINTER COVER CROPS

WINTER COVER CROPS

- There is nothing better for your soil than to have living roots in it.
- A winter cover crop on otherwise unused garden space is a wise way to go.
- The best cover crops are mixtures.
 - Grains - Wheat, Rye, Oats
 - Legumes - Winter Peas, Vetch
 - Brassicas - Radish, Kale, Mustard

Jen

Came in last... but just have to say I am loving this app! I'm a fairly new gardener and this is sooooo helpful!

Kim

I have been gardening since I was in my mid 20s. I'm now in my mid 60s. I started using the earliest version of Seed time when it first came out. My fall and winter garden last year was the best ever, because the guess work of when to plant was simplified and so easy. Can't wait to see how it will do again this fall and winter. My summer garden this year has been challenging because of extreme heat. I love all the videos, helpful links and knowing I can get answers to my questions when I need help. Seed time is absolutely the best and I love it! Wish it had been around 40 years ago. It gives beginning and experienced gardeners tools to have the most productive and successful gardens and harvests. Thank you so much!

Like · Reply · 9h

Kali [redacted]

I'm planning a much larger fall/winter garden than I have in the past, with a mix of protected and unprotected growing spaces. It's a lot of different seeding dates to sort out and manage, and Seedtime definitely made it easier to plan and stay on task, and be confident that I am planting things at the right time. I'm looking forward to using it to plan my next spring garden!

[Like](#) · [Reply](#) · 22h

Stacie [REDACTED]

ORGANIZATION! This is my first year trying a functional garden and Seedtime has helped me be SO organized with it! It's really helped me be less anxious about growing everything and gave me a ton of confidence in managing a whole garden!

Seed time is amazing

Seed time is amazing, I plant hundreds of different varieties, and **this program has made my planning time go from about a week, to about a day.** Thanks seedtime!

It's like having a personal farm manager!

The most indepth gardening system I've ever seen! Easy to use, and if there are places that I have trouble with, the tours and the step by step videos are extremely helpful. This system has saved me weeks of work in just a few days. I highly recommend giving Seedtime a try. I'm a fan for life!

Absolutely love the ease of this...

Absolutely love the ease of this program! I have always struggled with mapping out plants in the garden. This has made days of sitting and researching/planning/sketching into hours. It's also fun to nerd out and see all of the possibilities that Seedtime helps you create in your garden!

The SeedTime app is incredible

The SeedTime app is incredible. It helps me with every aspect of my gardening, from choosing plants, to seeding, transplanting, harvesting, planning, and growing through all seasons. They've given a lot of thought to this program. **I was doing everything with an Excel sheet, which was a lot of work. SeedTime just cut my work from days to a few hours.** Thank you SeedTime!

Jan 23, 2022

I turned weeks of planning into days of planning.

Seed Time is, so far, the answer to my planning struggles. The interface is very easy to use and manage my multiple gardens with multiple beds through the many successive plantings. The journal has great potential for record keeping and team management in addition to just keeping notes that be filtered allowing me to correlate notes on specific cultivars or tasks. Customer service is top notch! I get responses to my chat questions very quickly and they have an amazing system for product improvement. What was taking me weeks with my old system of planning, only took me a couple of days with Seed Time!

A Game Changer

I have been using Seedtime for less than a month now and it has already been revolutionizing the way I plan my crops. Because of the size of my Market Garden (less than 3 acres), other types of crop planning software do not really work for my scale so I have been playing the Excel Sheet Shuffle for quite some time. With Seedtime, what would usually take me several days of planning now only takes me a couple of hours, and it is very customizable to account for the ever-changing realities of a small veggie operation. My favorite part is actually the Task List, which allows me to see what is coming up for that week and print out the tasks to distribute to my crew. This is truly a game changer!

I have only been using for a few days...

I have only been using for a few days but now hooked. This is by far the BEST garden planning tool I've ever come across. I've created excel spreadsheets, bought apps, books and the almanac website, but this is the BEST comprehensive planning tool. It breaks down each crop into tasks. It also allow seamless succession planting flexibility to move things around and see how they impact your harvesting in real time.

Hands down the best garden planning tool out there

Absolutely the best planning tool for beginner gardeners to the most experienced. I am a nerdy researcher type, who has to "plan" every detail out before getting started on something. This has it all, and does the tedious work for you. The Free tool works for many, or if you like the bells and whistles, consider upgrading!

I started with the free garden calendar...

I started with the free garden calendar and was very impressed! I heard about the lifetime unlimited membership and the additional upgrades coming and decided I wanted in to help this project move forward even before I knew the cost! This is the best garden management tool I've ever seen for the price! Paul and his fathers teachings are priceless! Get this free garden planner you want regret it! Perhaps you might want a lifetime membership, too!

Absolutely Awesome!

Hands down, the best gardening tool you will EVER find! The free version rocks out but if you have a little bit of change left each month, the upgraded version will knock your socks off and is worth every penny. I've been gardening for many years and don't even know how I survived without this! Great job guys!

Seedtime beats PS5

I just heard of Seedtime last week, but within 7 days, I was convinced to spend my hard-saved PS5 console fund on a Lifetime Unlimited account to support the continued development of this amazing project. I started winter gardening last year by the seat of my pants. This is absolutely going to 150% help me to be more efficient and amp up my winter garden game. Not to mention what it will do to help me contain my spring and summer chaos, and keeping better records. Playstation can wait. :) Looking forward to seeing what comes next.

Gardening made Easier

If you want to make your gardening life 100X more efficient INVEST TODAY! I've paid for the program. Jill Ragan from Whispering Willow Farms promoted this on her channel. I've used it for a week and its already worth the investment. The how-to videos are amazing, answering my questions without even needing to use the chat. The help search feature is extremely helpful as well. Even the free version is an excellent investment of your time with so many useful tools. This program has blessed me immensely as it gives me time back with my family.

A close-up photograph of fresh green leafy vegetables, likely kale or collard greens, covered in water droplets. The leaves are vibrant green and show detailed vein patterns. A dark, semi-transparent horizontal bar is overlaid across the middle of the image, containing the word "HOMEWORK" in white, bold, uppercase letters.

HOMEWORK

HOMWORK

1. **Map your garden** area out
2. **Choose where each one will grow** and how much to grow
3. **Go LIVE or post** in the FB group and share your #1 takeaway from today's training
