SEEDTIME

SILENCE DISTRACTIONS

MAPPING OUT YOUR GARDEN SPACE

YOUR FALL GARDEN SPACE

1. Look for areas that get the most sun
2. Most crops do best with 6-8 hours of full sun
3. South facing slopes / walls will stay warmer in the winter
 1. In hot zones like Southern Florida you may want to look for cool microclimates (North facing)

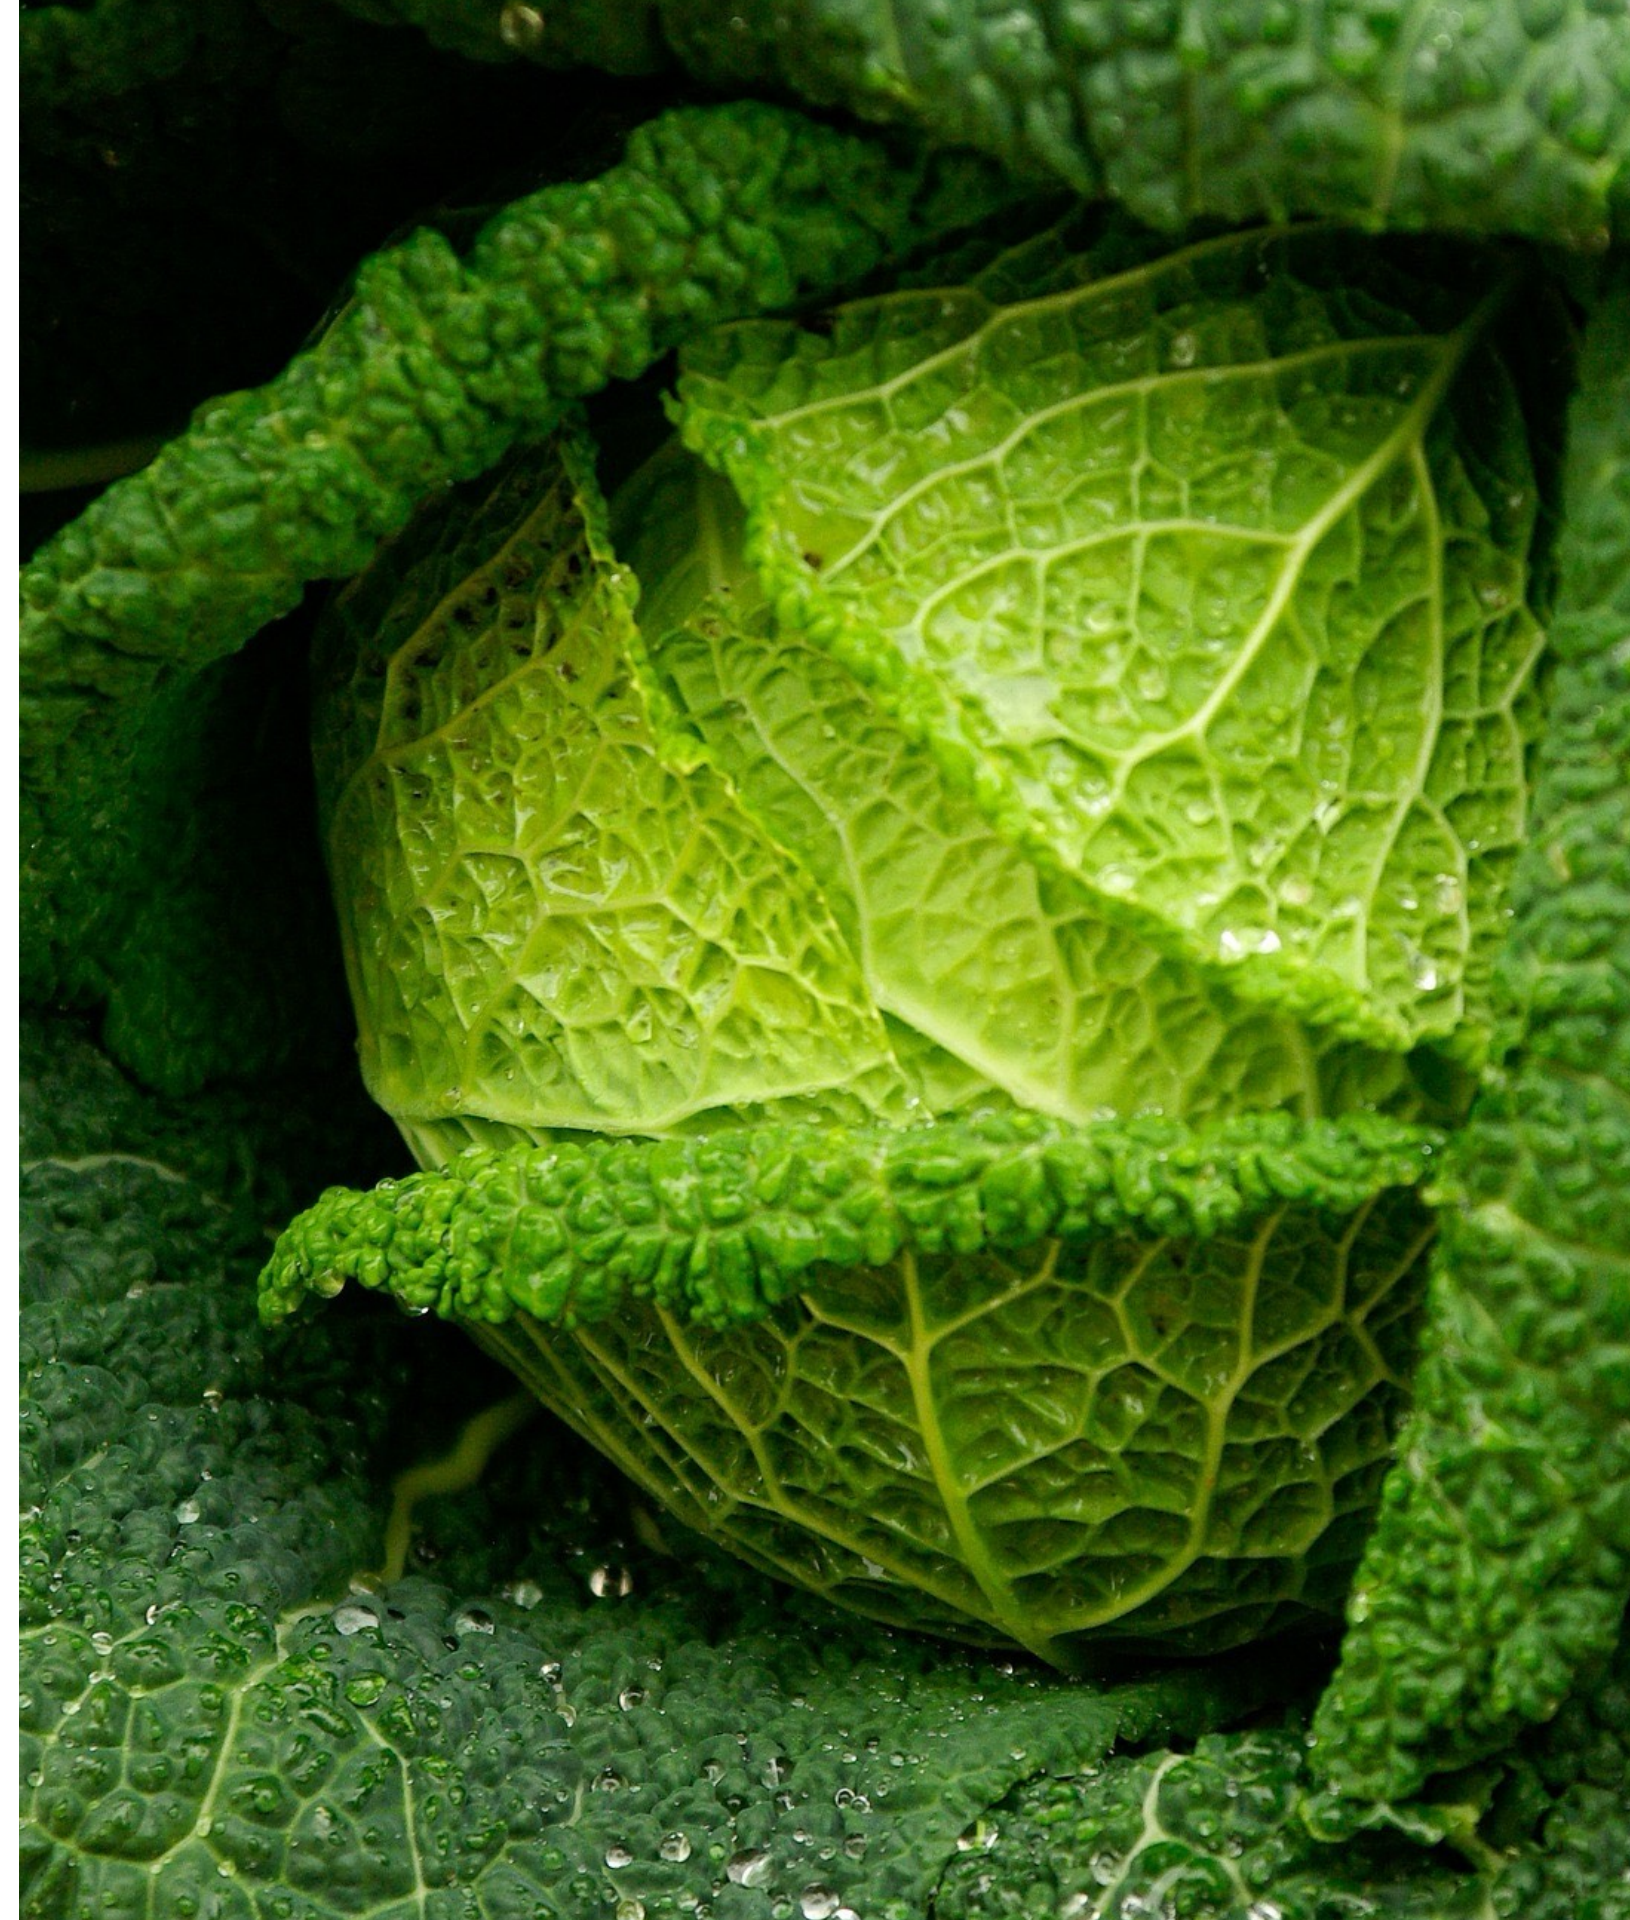

YOUR FALL GARDEN SPACE

1. Consider protection from the wind
2. Understand microclimates
 1. Wind protection
 2. Frost pockets
 3. Orientation
 4. Creating your own

CROPS FOR THE SHADE

1. Veggies grown for their leaves or roots tolerate shade the best
2. Beets, carrots, garlic, potatoes, radishes, onions
3. Asian greens, broccoli, cabbage, collards, kale, lettuce, spinach, Swiss chard etc.

MAP OUT YOUR SPACE

1. Map out your garden space
2. Lay out your garden beds
3. We suggest 30" wide beds
 1. Easy to step or reach across
 2. Tools made for them
 3. 12-18 inch aisles

30 Inches

(2.5 feet)

20 Feet

A top-down view of numerous small, round, black plastic pots arranged in rows. Each pot contains dark, rich soil and a small, young green seedling with several leaves. The seedlings are evenly spaced across the pots, creating a repeating pattern of green against the dark soil. The lighting is soft, highlighting the texture of the soil and the vibrant green of the plants.

SIMPLE CROP ROTATION

WHY ROTATE YOUR CROPS?

1. Plants give and take from the soil in different ways
2. Some are heavy feeders and some are light feeders
3. Insect and disease control
4. Crops can affect the next crop grown
5. Legumes leave nitrogen in the soil

SIMPLE CROP ROTATION PLAN

Four-Year Basic Crop Rotation

Vegetables:

Beans
Green Beans
Peas
Peanuts
Cover Crop

Families:

Legumes

Vegetables:

Carrots
Turnips
Onions
Radishes
Beets
Dill, Cilantro

A close-up photograph of several green leaves, likely from a plant like basil, showing detailed vein patterns. The leaves are vibrant green and slightly overlapping. A semi-transparent black rectangular box is positioned horizontally across the lower third of the image, containing white text.

CHOOSING WHERE TO GROW EACH CROP

WHERE TO GROW

1. Divide your garden into four equal sections
2. Plan your crops based on the four kinds in the crop rotation plan
3. What if they don't fit?
 1. Example with fruits and grains
 2. Double it and split by family

FIGURING OUT HOW MUCH TO GROW

HOW MUCH TO GROW

1. Two ways to view it
 1. Look at available space and fill it up
 2. Look at the amount you want to eat each week and multiply it by the harvest window (in weeks)
 3. Calculate row space to produce desired harvest
2. See worksheet to calculate

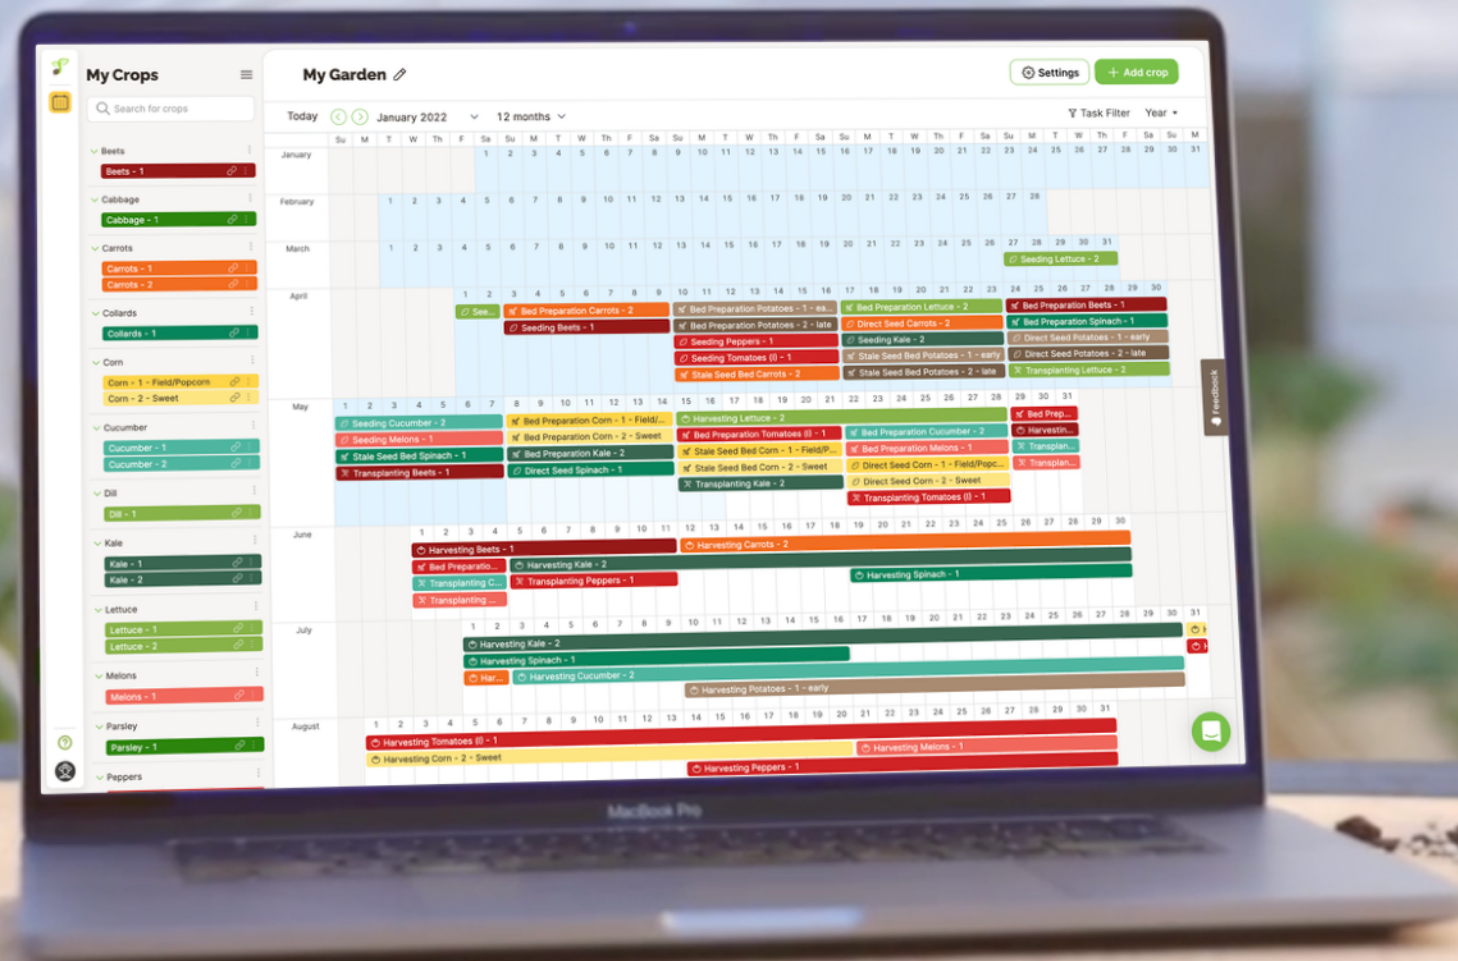

A low-angle, close-up photograph of a field of young green plants, likely winter cover crops, growing in dark, rich soil. The plants are in various stages of growth, with some showing small purple flowers. The background is a bright blue sky with scattered white clouds. The overall scene is vibrant and suggests a healthy, growing agricultural environment.

A WORD ON WINTER COVER CROPS

WINTER COVER CROPS

- There is nothing better for your soil than to have living roots in it.
- A winter cover crop on otherwise unused garden space is a wise way to go.
- The best cover crops are mixtures.
 - Grains - Wheat, Rye, Oats
 - Legumes - Winter Peas, Vetch
 - Brassicas - Radish, Kale, Mustard

Absolutely Love it!!! I now have a clear plan of what to do when - NICE JOB!!!

I am not the most tech savy - curious where we go to log back in, go back through emails or is there an icon we can upload?

· Like · Reply · 49m

Kali [redacted]

I'm planning a much larger fall/winter garden than I have in the past, with a mix of protected and unprotected growing spaces. It's a lot of different seeding dates to sort out and manage, and Seedtime definitely made it easier to plan and stay on task, and be confident that I am planting things at the right time. I'm looking forward to using it to plan my next spring garden!

Stacie [REDACTED]

ORGANIZATION! This is my first year trying a functional garden and Seedtime has helped me be SO organized with it! It's really helped me be less anxious about growing everything and gave me a ton of confidence in managing a whole garden!

Seed time is amazing

Seed time is amazing, I plant hundreds of different varieties, and **this program has made my planning time go from about a week, to about a day.** Thanks seedtime!

It's like having a personal farm manager!

The most indepth gardening system I've ever seen! Easy to use, and if there are places that I have trouble with, the tours and the step by step videos are extremely helpful. This system has saved me weeks of work in just a few days. I highly recommend giving Seedtime a try. I'm a fan for life!

Absolutely love the ease of this...

Absolutely love the ease of this program! I have always struggled with mapping out plants in the garden. This has made days of sitting and researching/planning/sketching into hours. It's also fun to nerd out and see all of the possibilities that Seedtime helps you create in your garden!

It was crazy and super
exciting and it highlights that
this isn't just our project

Seedtime is a community
project

**And if you're catching the
vision...**

If you'd like to experience less
stress and overwhelm
planning and growing your
garden/farm...

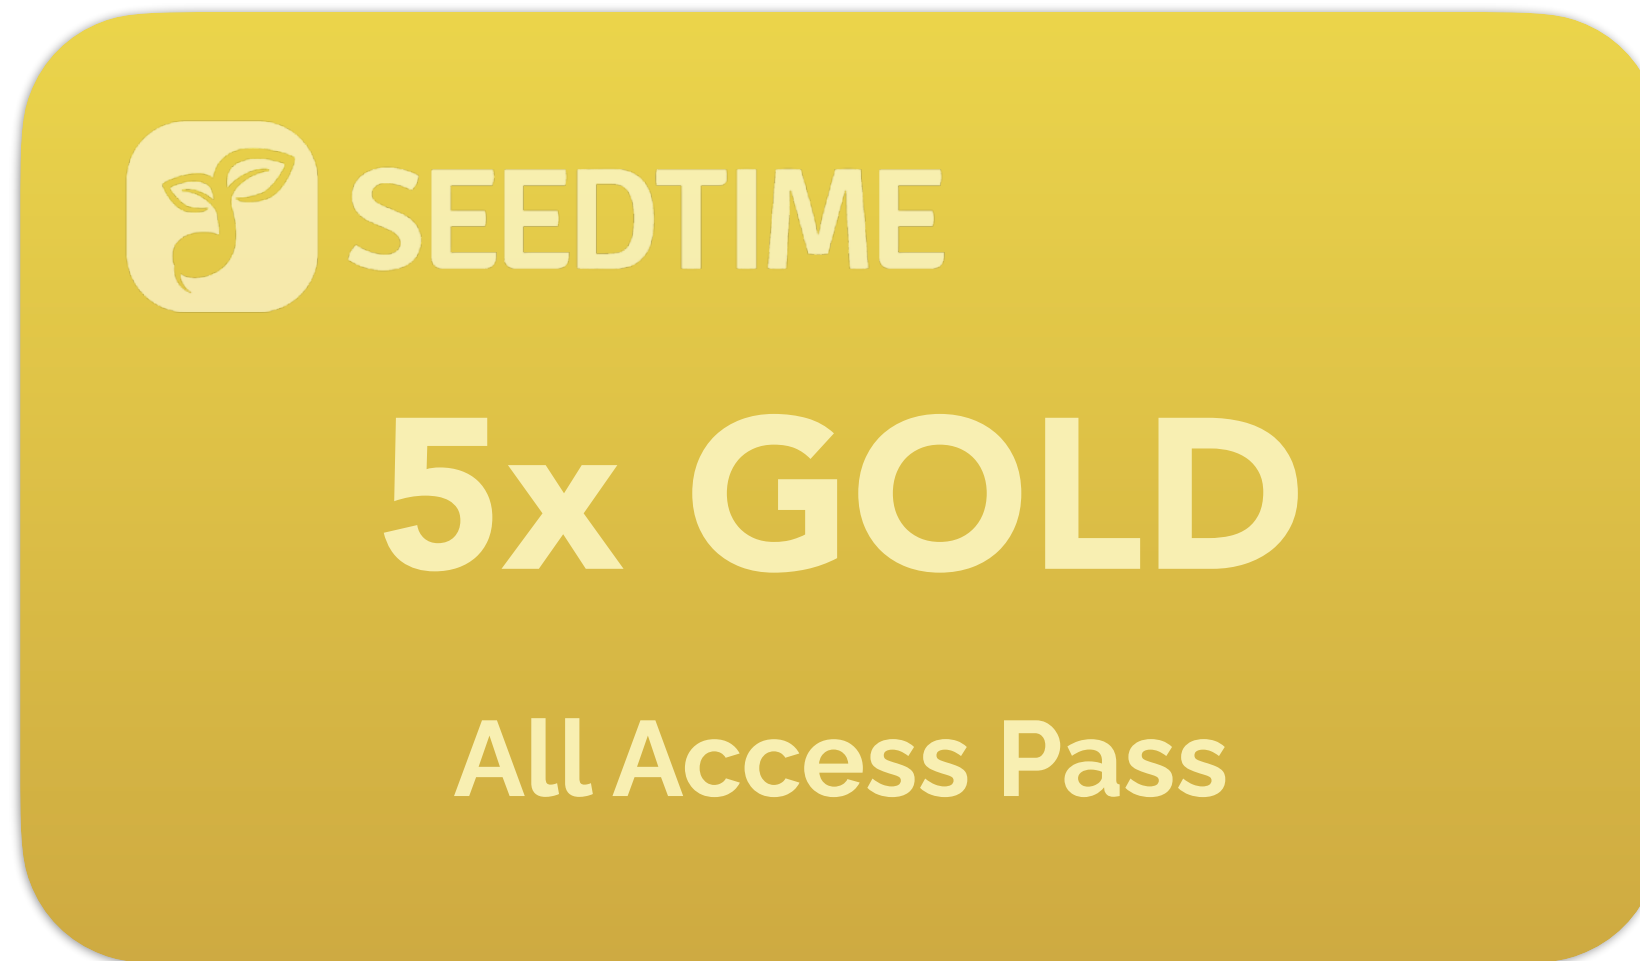

**And would love to help
support this project at the
same time...**

Here's what we're excited
about

**During this event we're hosting
a fundraiser to continue
building out Seedtime into the
best garden/farm planner ever**

And we're doing something
that we've *never* done before

Introducing the Seedtime: 5x Gold All Access Pass

**5x Gold Passes are not open
to the public**

In fact, they aren't even
available inside your
Seedtime account
or anywhere else right now

But for a limited time we're
opening up the opportunity to
get your 5x Gold All Access Pass
and lock in some huge benefits
(and savings)

So here's what's included with your 5x Gold Pass:

5 YEARS UNLIMITED ACCESS:

✓ **Unlimited Level Access to Seedtime (\$840 value)**

Unlimited Calendars
Unlimited Layouts
Unlimited Tasks
Unlimited Journal Entries
Unlimited Inventory
Unlimited Classroom (masterclasses)
Unlimited Community Access
Unlimited Weather (*future release*)
Unlimited Records (*future release*)
Unlimited Analytics (*future release*)

✓ **Unlimited Discounts in the Store (\$250+ value)**

Up to 20% OFF EVERYTHING

✓ **BONUS Unlimited Training Library Access (\$500 value)**

Every gardening course/resource
we've ever released in the classroom

✓ **BONUS 12 Months Mentorship Coaching (\$250 value)**

Grow a continual harvest even faster
with monthly group coaching calls with
Edwin & Paul

✓ **Tools, discounts, training, and mentorship to grow a continual harvest**
